## **Security** **Poul Anderson**

"Security", tells the story of a compartmentalized government physicist ordered by secret police to complete experiments aimed at developing a new weapon. He is brought to a hidden space station and put in charge of the project but there are many questions. In a world of spies watching spies it's sometimes hard to know what's patriotic. --- Poul Anderson was a Golden Age Science Fiction and Fantasy author. "Security" first appeared in the magazine "Space Science Fiction" in February of 1953
